 No. of responses = 21  
 Enrollment = 50  
 Response Rate = 42%

1. Background Information:

1.1) Your Degree Program:

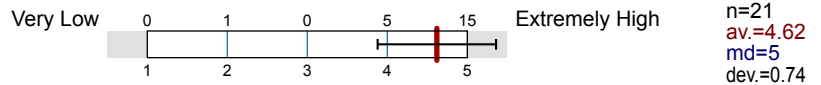

1.2) If "Other", please specify your degree program (100 characters maximum):

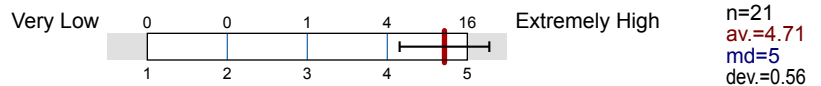

- Business Economics (2 Counts)
- Business Economics major, Entrepreneurship minor
- CS
- CS TBA
- Data Theory
- Economics
- Entrepreneurship Minor
- Entrepreneurship minor
- Math/Econ
- Psychology major. I also applied to Entrepreneurship minor this Spring.
- Psychobiology
- Undergraduate Business Economics, Entrepreneurship Minor
- Undergraduate Entrepreneurship (2 Counts)
- Undergraduate Minor in Entrepreneurship

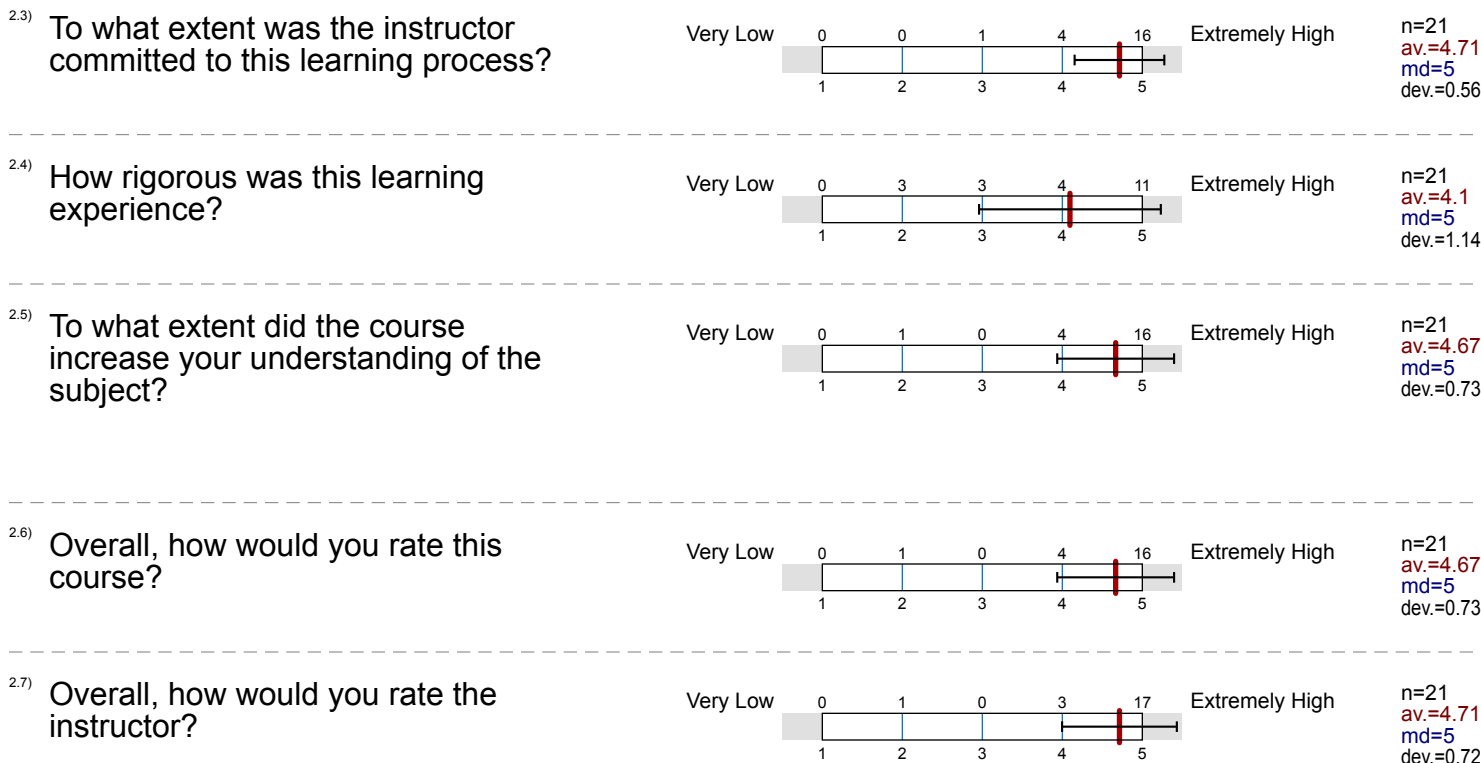

2. UCLA Anderson School of Management:

2.1) How effectively was the learning experience organized?

2.2) How well did the instructor demonstrate mastery of the subject?

### 3. Comments:

3.1) Comments to the instructor of this course:

- Be kinder. But thanks for being chill.
- Coach Weinhaus is a very cool professor with years of real-life experience in the field which allowed him to thoroughly share his extensive knowledge with the class.
- Coach Weinhaus was a great facilitator of discussion and hosted a super engaging class this spring. This was my favorite class this quarter and one of the best and most interesting ones I have taken at UCLA. Even though we have to be in lecture for three straight hours, the discussion and ability to comment on the material and interact with others makes it super interesting. Thanks!
- Coach Weinhaus was an incredibly engaging professor. He made class exciting and interactive. I very much enjoyed this course.
- Coach cares about teaching, enjoys the content, and wants his students to do well.
- Coach is a great instructor! He is very engaging and uses many real-life examples to connect and teach the class concepts. My only complaint about the class is that it is so heavily focused on class participation, but students are unable to keep track of their participation points throughout the quarter.
- Coach is one of the best professors I've had at UCLA. It is clear that he deeply cares about his students and their learning process. The lectures and material are very engaging, and Coach taught it in a way where we can easily apply it to our entrepreneurial ideas.
- Coach is very passionate about teaching, he posed interesting questions to students and opened discussion in various ways. I also like how he tied in many personal experiences into the course and really stressed developing the skills of entrepreneurship. Coach wanted everyone in the class to get a good grade and emphasized learning and furthering interest in entrepreneurship rather than worrying about grades. Overall, the class was enjoyable and I like Coach's teaching style.

- Coach was one of the most engaging professors I've ever had. He made student led discussions welcoming and enjoyable. As well as making the classroom an environment for students to discuss their ideas.
- One of the best professors at UCLA. He engages the students through his thought provoking discussions, examples and applications to the real world, and interesting business cases. Every student has a great time learning with one another in this class and look forward to participating and talking in class. The learning environment in this class is extremely motivating, and interesting!
- Professor WEINHAUS is amazing! The material was hard and exams were challenging but it was still my favorite course this quarter. His class encouraged me to apply to Entrepreneurship minor. He was successful to engage the whole class in discussing and debating the topics. I am a shy student that will not talk during the class unless I am called, but in this class I wanted to engage and discuss the material along with the class. I really enjoyed the learning process, the activities that we did and all the materials that we learned. Give professor a raise haha, he is truly one of the best. This was the only class that I looked forward attending, and even though we were allowed to miss 1 class, I did not miss any even though I commute and I had to drive 1+ hour each time to attend this class, but I would do it again! This professor is the best and I hope he teaches other MGMT courses too because I want to enroll in them I am certain they will be as interesting as this one was.
- Professor Weinhaus is great. He creates an amazing classroom environment and motivates every student to participate in discussions. He takes the core concepts of the class and always applies them to real-life examples, allowing us to better understand the material. I went into this class shy, but after this quarter and with Coach's encouragement, I was able to participate more than I ever have in a class.
- This is the management course that I expected. Full engagement during the discussion. The lecture as a whole is a discussion where our thoughts combined and crossed. This is the management course I want to take. I would like to take more courses with Coach in the future.
- This was a really fun class. It was nice being in a lecture where students actually got the opportunity to participate and do activities. The activities also helped me stay focused and not zone out over the course of the 3 hour class. They also helped me learn. Thank you for getting rid of the weekly quizzes. I read about them on Bruinwalk before signing up for this class and they sounded extremely not fun. I hope I get to take classes taught by you again in the future!
